Collide

James Bay

I know I'll do it again
I know we're gonna collide
I know we'll call it the end
But it's always always a lie
You wear your heart on your sleeve
I wear my blood on my tie
But it's only love underneath, this disguiseOh you left, a hole in me
But I don't cut, easily
I'm only just holding up, on my knees
I think it's time to open up, I don't mean bleed
So turn it on, we can go wild
If it's what you want, fire at meI can't bear to let you go
So keep on throwing your sticks and stones
I'd rather fight with you all night, than never have you in my life
I can't bear to let, bear to let you goWhy don't you do it again?
Go wrecking something of mine
Like you deserve the revenge
Like I've got something to hide
I keep on playing with you, yeah
You keep on calling me names
Sure I can take the abuse
It's just a gameOh you left, a hole in me
But I don't cut, easily
I'm only just holding up, on my knees
I think it's time to open up, I don't mean bleed
So turn it on, we can go wild
If it's what you want, fire at meI can't bear to let you go
So keep on throwing your sticks and stones
And I'd rather fight with you all night, than never have you in my life
I can't bear to let, bear to let you goAll I know is I love it when, ow, she blows
We keep turning red
Hot, stone cold, she burn inside
Deals get broke we fold in and fold out, we're too close
It's dead love until curtains close
And we come aliveI can't bear to let you go, no
So keep on throwing your sticks and stones
I'd rather fight with you all night, than never have you in my life
I can't bear to let, bear to let noI can't bear to let you go
So keep on throwing your sticks and stones

I'd rather fight with you all night, than never have you in my life
I can't bear to let, bear to let you go
