

Far from Right

Habibi

You don't really want me now, but I think you do
You don't really want me now, I guess I broke it to you
You think you're the only one who's out of sight
Baby let me show you, how far you are far from rightFar you're faraway you're far from right x2
far far far far far from right x2You got a lot of nerve to come to my scene
You don't got to wear a crown, if you think you're uglyBaby, better get it straight, better hit the doorYou say
you don't want me, but, I don't want you know moreNo no no, I don't want you no more x4You don't really
want me now, but I think you do
You don't really want me now, I guess I broke it to you
You think you're the only one who's out of sight
Baby let me show you, how far you are far from rightFar you're faraway you're far from right x2
far far far far far from right x2
