Snowstorm

The Skyrockets

Well, I listen to the weather
And he's changed his tone of voice
And he can see it on the radar
Only seven hours awayWell, there's gonna be a snowstorm
When the TV's goin' out
And they got nothin' else to think of
And they're letting me go homeWell, I'm lookin' at the snowflakes
They all look the same
And the clouds are goin' by me
They're playin' some kind of gameWell, you know there's a snowstorm
When the TV has gone out
And they got nothin' else to think of
And they're letting me go home
