# Hard to Say Goodbye

## Xscape

Time has been short since you left me
So I can't help but think
Of how things between us used to be
You were a piece of my heart
And I thought that we were swell
Until you told me you were leaving
To find a better life for yourself, oh II wish we were together again
Loving the way we used to love
Boy I miss you much
I wish we were together again
Oh how I'm missing you
It's so hard for me to say goodbyeGoodbye
Goodbye
Bye bye bye bye bye bye
GoodbyeYou know that I love you
And for you there ain't nothing in this world
That I won't do
If you would only come back to me
And let me show you how loving me could beI, I've got feelings
But you act like you don't care
You treat me so unfair
Love has no meaning
Since you walked right out my life
You've touched a part of me
Can't you see that I'm in need of you?I wish we were together again
Loving the way we used to love
Boy I miss you much
I wish we were together again
Oh how I'm missing you
It's so hard for me to say goodbyeI wish we were together again
Loving the way we used to love
Boy I miss you much
I wish we were together again
Oh how I'm missing you
It's so hard for me to say goodbye
