

How's Forever Been Baby

Elvis Perkins in Dearland

Remember let's plant a flowering tree
Here in the rubble and debris
I'll tend it with a tear
If you only hold my hand How's forever been baby?
How's forever been baby? You know I build fires to beat a post
You look out upon the sea, do you still see the sea?
I get the fire of the bones
You say I come in peace How's forever been baby?
How's forever been baby? Outside the gates I arrive home
Can you taste the spirit on the tongue, the tongue, the tongue
See me refuse you
Send you out into the night to fly a blank flag home How's forever been baby?
How's forever been baby? Remember take me back to our teens
We can waste the time between, between, between
Carry me a candle and a lunar calendar
Will you stay the night with me? How's forever been baby?
How's forever been baby? And it was let's fell out withering tree
It bloomed in the rubble and debris
I would bury it in ice for all of eternity
To see How's forever been baby?
How's forever been baby?
