

The Violence of Truth

The The

What is evil? What is love? What is evil? What is love?

What is evil? What is love? What is evil? What is love?

What is evil?

What is evil? What is love?

What is evil? Somethings telling you to wake up and salute

The dangers of obedience and the violence of truth

Somethings telling you to wake up and salute

The dangers of obedience and the violence of truth God is Evil, God is love

God is the force that possesses us

God is beauty, God is truth

God is the force that is watching over you What is evil? What is love?

What is evil? What is love?

What is evil? What is love?
