

Every Day Is a Monday

Laura Pausini

Feels like I've been frozen in time
And I'm looking for an easy way
To get on with my life But I know you're the one to tell
I've been putting on a masquerade
I ain't doing that well Everything is crushed
And I'm losing this game
I can't help myself but wonder
Do you feel the same? How could I ever say goodbye
Every day is a Monday
Without you by my side
I must have been a fool to try
'Cause every day is a Monday
Without you in my life Tell me it's a big mistake
'Cause I kind of learned my lesson
More than I can take Freedom I don't trust your face
I don't wanna be the one
Who is running, oh no way Everything is crushed
And I'm losing this game
I can't help myself but wonder
Do you feel the same? How could I ever say goodbye
Every day is a Monday
Without you by my side
I must have been a fool to try
'Cause every day is a Monday
Without you in my life We work the weekend
Always living to be free
Now I'm stuck in a Monday
When I need you everyday of the week How could I ever say goodbye
Every day is a Monday
Without you by my side
I must have been a fool to try
'Cause every day is a Monday
Without you in my life I must have been a fool to try, oh baby
How could I ever say goodbye
Every day is a Monday
Without you in my life
Every day is a Monday
