

We Tried

The Drums

I needed a place to go
Yeah that's what you told me
So I went to your house
To try to find you in your room
Why cant I find you now Walking alone tonight
Wishing you were still here
Wishing things were alright We tried, oh yeah
We tried, and we died
We tried, oh yeah
We tired, and we died We took down the icicles
The way they'd melt in your hand
You told me you loved me
At an age I didn't understand where will we go when we get old
