

# Skeletons

## Breathe Carolina

We're face to face  
Sorry to wake you I just had to  
What's done is done  
Now that I'm sober I just have to tell you  
All that I had to hide  
You deserve the truth  
I must've love, close enough  
It's what I have to do  
You need to hear  
You need to hear this all from me  
Skeletons in my room  
I laid down my love for you  
Second thoughts will be the death of us  
And I don't want the death of us  
If I can change  
If I can change  
I know I'm better  
(With you on my side)  
If I can change, can I change your mind?  
If I can change, can I change your mind?  
If I can change, can I change your mind?  
I know I'm better with you on my side  
If I can change, can I change your mind?  
If I can change, can I change your mind?  
If I can change, can I change your mind?  
I know I'm better with you on my side  
These words will stay here  
I hope behind and not between us  
With this we're free now  
I'm where I am and you're the reason  
(Whoa oh)  
You should know that you saved me  
From a place that I never would've left alive  
You've got my heart and it's racing  
I'm pacing back and forth  
Skeletons in my room  
I laid down my love for you  
Second thoughts will be the death of us  
And I don't want the death of us  
If I can change  
If I can change  
I know I'm better  
(With you on my side)  
If I can change, can I change your mind?

If I can change, can I change your mind?  
If I can change, can I change your mind?  
I know I'm better with you on my side  
If I can change, can I change your mind?  
If I can change, can I change your mind?  
If I can change, can I change your mind?  
I know I'm better with you on my side  
If I can  
Take all these skeletons  
Lay them to bury them  
Take all these skeletons  
Lay them to bury them  
Can I change your mind?  
And bury them  
Can I change your mind?  
And bury them  
Can I change your mind?  
And bury them  
You on my side  
Skeletons in my room
