

# Be Bold Be Strong

**Melinda McGlasson**

Chorus: Be bold, be strong, put up a good fight, sometimes it might feel like you are losing but keep carrying the light, walk around the wall, no matter how big or small shout and they will fall down, Be bold, be strong, this is the ride of your life!

Verse 1: Three stones and a sling did amazing things, what giant do you face today, an uphill climb, do you feel blind, do you feel you have lost your way? Three normal guys who would not bow to lies, do you feel the fire all around, thoughts crowd in but you won't let them, you need a miracle to win.

Verse 2: People are sad every where, where is the joy today? Does love exist, is hope in our midst, do you feel this way? Buying, losing until your hearts content, what more could there be, the answers right in front of you, it's not a mystery (Repeat Chorus) Bridge: Battles are all around you, Pushing from all sides, It's not the time to give up, You've got God on your side, praise your way through, God is patiently waiting, he wants to fight for you!
