

It's Still Love

[PureNRG](#)

One more day of waking on this ball that spins in space
Seeing broken hearts and dreaming on a brighter day
Searching deep inside for a way to help them through
Finally found the answer but it ain't nothing new
It's still love that makes this world a better place
Just a touch from another heart and anything can change
We don't need to look that hard to find a common ground
It's still love that makes the world go round
Sometimes even strong hearts wonder if the time meets far
Really makes a difference when they see the days go dark
There it comes still happening, they go by but not to dare
To let a hopeless heart know that we care
It's still love that makes this world a better place
Just a touch from another heart and anything can change
We don't need to look that hard to find a common ground
It's still love that makes the world go round
It's still love, it's still love
There it comes still happening, they go by
but not to dare
To let a hopeless heart know that we care, care
It's still love that makes this world a better place
Just a touch from another heart and anything can change
We don't need to look that hard to find a common ground
It's still love that makes the world go round
That makes the world go round
We don't need to look that hard to find a common ground
It's still love that makes the world go round
