

# Acoustic Guitar

## The Magnetic Fields

Acoustic guitar, I'm gonna make you a star  
Get your picture all over the world  
Acoustic guitar, you can have your own car  
Just bring me back my girl She always loved the sound of your strum  
You made her think, maybe, I wasn't so dumb  
She tends to faint at the sound of a drum  
'Cause she's focused and planned, maybe she'll come Acoustic guitar, how lovely you are  
With your inlays of mother of pearl  
Be a good guitar and you could go far  
Just bring me back my girl She always said that you were the one  
That could make her move her cute little bum  
You understand where she's coming from  
Which I obviously don't, or she wouldn't be gone Acoustic guitar, if you think I play hard  
Well, you could of belonged to Steve Earle  
Or Charo or Gwar, I could sell you tomorrow  
So bring me back my girl  
You'd better bring me back my girl
