

Fight Me

Xandria

I cannot turn away
From this obscurity
A nameless force
Is stealing my face Come and try to fight me
You will never break me I know it's the final breath I'm taking
If I let you win
So I cannot be the one forgiving
Or I'm giving in Now I can see you
You were just hiding
You won't betray me
'Cause now I know your name Come and try to fight me
You will never break me I know it's the final breath I'm taking
If I let you win
So I cannot be the one forgiving
Or I'm giving in Come and try to fight me, baby
You will never break me, no
[Incomprehensible] Come and try to fight me, baby
You will never break me, no
[Incomprehensible] I know it's the final breath I'm taking
If I let you win
So I cannot be the one forgiving
Or I'm giving in I know it's the final breath I'm taking
If I let you win
So I cannot be the one forgiving
Or I'm giving in Come and try to
Come and try to fight me
