

My Time Your Time

Sizzla

This is how we make music for them
It's a judgment, then gonna take it to them
Them no wanna name, no bad man, no red eye
No get so vicious, some my time, some your time
You better leave out no bad mind, no red eye
No get so vicious, some my time, some your time
Now the pagans say, don't test, Rastafari, my mighty fortress
Hypocrisy that [unverified] left, stop fight, the ghetto youths progress
This is how we make music for them
It's a judgment, then we gonna take it to them
Them no wanna name, no bad mind, no red eye
The ghetto youths show, some my time, a your time
You better live up, no bad mind, no red eye
