Choose Your Weapon

Exodus

(Exodus)
So you think you're good and ready?
If you do your bubble is gonna burst
We're getting whipped into a frenzy
And you're the one we'll punish first
We've got our muscles pumped and primed
To release our devastating force
Non-stop unrelenting aggression
To us is par for the course!
(chorus)
I hate to love
And love to hate
There's no need to negotiate
So choose your weapon
And choose your fate
It doesn't matter 'cause by then
It's too late!
We'll deliver an assault to your senses
And drive you into the ground
You can rely on us for action
Never stop or slow down
Always running into danger
Taking the lion by the throat
Obeying no law but our own
Violence is what we promote!
(repeat chorus)
