Building

The Philip Glass Ensemble

You know I don't just hate everyone
No I don't just hate everything
You know I won't just love anything
You know I won't just love everythingBaby, love is building
Our lives are building
Hate is a building torn down
Love is buildingYou know we didn't know what to think
You knew all along we would work it all out
You know we didn't know who and what to believeBaby, love is building
Our lives are building
Hate is a building burned down
Love is buildingWere you in doubt of a new day?
You lifted my doubt of a new day
Building
(Love is building)Building
(Love is building)
Building
(Love is building)
Building, building, building
