I Met a Girl (Acoustic Mixtape)

Sam Hunt

She donâ€™t laugh at everything but when she does the planets swing around her
She donâ€™t step on sidewalks and her teenage boyfriends all still dream about her
She donâ€™t need the glitter of the Vegas lights she could blow a kiss and leave you spinning like a tilt o world.
I met a girl she made me smile she made me wait she crossed the street she crossed my heart she fixed her dress
she bit her lip she lit me up
I met a girl with crazy shoes and baby blues the way she moves is changing my whole world I met a girl

The sun rise waits for her to wake up sheâ€™s a pony tail no makeup Saturday
she donâ€™t need umbrellas in the summer rain she could catch the eye of a hurricane in blue jeans and pearls
I met a girl she made me smile she made me wait she crossed the street she crossed my heart she fixed her dress
she bit her lip she lit me up
I met a girl with crazy shoes and baby blues the way she moves is changing my whole world

She turned around and it felt like the street turned upside down the only thing I could say was hey and Iâ€™m just
glad she didnâ€™t walk away
I met a girl she made me smile she made me wait she crossed the street she crossed my heart she fixed her dress
she bit her lip she lit me up
I met a girl with crazy shoes and baby blues the way she moves is changing my whole world
I met a girl I met a girl I met a girl
