

Grown Up Calls

Toro y Moi

[Verse 1]

I'm alright, out here with you
It doesn't bother me, I know you think it does
It's us making grown up calls
You got more than my love[Verse 2]

You only talk

You won't bite

I can't kiss her, so I

I move over, it's not enough

It's what I want, to me it's fine

But I know, I keep it to myself

I don't want to have it all

I'm on the phone, like everything

You see me too, it's not my fault

[Refrain]

It's not so common for it to turn out wrong

It's not so common for it to turn out wrong[Chorus]

I'll always be by you

I know what you're thinking

I miss you[Verse 3]

I know it's hard to be alone

You gotta stay while I'm gone

I'm in a different state, another job

I didn't call, I'm so far[Refrain]

It's not so common for it to turn out wrong

It's not so common for it to turn out wrong[Chorus]

I'll always be by you

I know what you're thinking

I miss you
