

# Smoke a Little Smoke

**Eric Church**

Turn the quiet up, turn the noise down  
Let this ol' world just spin around  
I wanna feel it swing, wanna feel it sway  
And put some feel good in my soul  
Drink a little drink, smoke a little smokeWanna little more right and a little less left  
Little more right now, a little less what's next  
Act like tomorrow's ten years away  
And just kick back and let the feelin' flow  
Drink a little drink, smoke a little smoke, yeahI set my sails for a new direction  
But the wind got in my way  
I changed my course but my definition of change  
Just ain't the sameI'm gonna sit right here, stay away from there  
I'm gon' make pretend I just don't care  
I could get up, go get her back  
Or maybe I'll just let her go  
Drink a little drink, smoke a little smoke, yeahYeah, go get her back oh  
Drink a little drink, smoke a little smoke  
Drink a little drink, smoke a little smokeI kick back, give the blues spin  
Break out the wine, forget again  
Dig down deep, find my stash  
Light it up, take me backI kick back, give the blues spin  
Break out the wine, just forget again  
Dig down deep, strike my stash  
Light it up, memory crashOh no, I don't know, baby my take on life  
Maybe break out that old rock and roll  
Drink a little drink, smoke a little smoke  
Gon' drink a little drink, smoke a little smoke yea
