All Of Me

Scott Hoying

Been swallowing my debris
Without a trace of dignity
I'm living a fallacy
And been holding tight to all I can't keep
One memory, one memory
This time's the last I'll second guess
Your legacy, your legacy
This time's the last I will forget
So can't you take all of me
All of me, all of me?
Once and for all
Can't you take me?
So can't you take all of me
All of me, all of me?
Once and for all
Can't you take me?
I recognize the causes
Now I'm cutting out all my losses
Severing all the hindrance
Shedding the viral skin of infection
One memory, one memory
This time's the last I'll second guess
Your legacy, your legacy
This time's the last I will forget
So can't you take all of me
All of me, all of me?
Once and for all
Can't you take me?
So can't you take all of me
All of me, all of me?
Once and for all
Can't you take me?
You'd never believe the wolf I became
In moments of weakness and disarray
But now they can try to beat it out of me
I'm welcome to the challenge of emergency
Out of the halls of ruin
The slow burn slow, steady climb this time
'Bout to reverse the movement

And I'm quite sure you know just where I'm heading
So can't you take all of me
All of me, all of me?
Once and for all
Can't you take me?
So can't you take all of me
All of me, all of me?
Once and for all
Can't you take me?
