

# My Twin (Opium Dub Version)

## Katatonia

The neck, and then the chain  
The head is hung in shame  
The neck, and then the chain  
The head is hung in shame I thought that you had grown  
That you'd carry on  
But now that I am gone  
What else's been withdrawn you used to be like my twin  
And all its been  
Was it all for nothing  
Are you strong when you're with him  
The one who's placed you above us all I think our love  
I'll let it pass  
It feels like fire  
But it won't last
