

You Should Know

[Donell Jones](#)

You can't have my love no more You should know it's over now
 'Cause I got another love so I'm saying
 You should know it's over now
'Cause I got another love You never gave me all your special time
 Since you're busy hanging out that's not what my love's about
 I gave my heart, my soul, my trust to you
Tried to play me for a fool that's why I felt somebody new You should know it's over now
 'Cause I got another love so I'm saying
 You should know it's over now
'Cause I got another love You don't have to play these games no more
 Got someone new in my life and they always treat me right
 I don't even know why you still try
No way I'm coming back girl it's way too late for that You should know it's over now
 'Cause I got another love so I'm saying
 You should know it's over now
'Cause I got another love You can't have my love no more, yeah
Say it again another [Incomprehensible] I need someone who's there for me
 You just don't have that quality
 I tried to give you everything
But you couldn't love me so I'm saying You should know it's over now
 'Cause I got another love so I'm saying
 You should know it's over now
'Cause I got another love You should know it's over now
 'Cause I got another love so I'm saying
 You should know it's over now
'Cause I got another love You should know it's over now
 'Cause I got another love so I'm saying
 You should know it's over now
'Cause I got another love You should know it's over now
 'Cause I got another love so I'm saying
 You should know it's over now
