

Chaos Breed

Entombed

Dark clouds of chaos
Summons the king of fear
Forces of Aghartha come forth
Behold the Sumerian tears
The abbey of dark where
Awaiting the stormy sea
Shreds of flesh chained to walls
To greet the master of realms
I am the bringer of seed
I will bring eternity
I am what this world needs
I am chaos breed
Worships forsaken Dankar
Manifest of the left hand path
Inquisitions torments lost souls
The horrors of the grapes of wrath
The dawn of the blackest sun of all skies
Mysteries of Khem revealed
Ancient arts of process of pain
No longer concealed
Legends of books bound in blood
Secrets of Necrodaemon
Brought by powers upon the face of earth
Aghartha reigns the new aeon
I am the bringer of seed
I will bring eternity
I am what this world needs
I am chaos breed
