

# Snakes And Ladders

## Switches

We're tired of all these orchestrated fears  
The war on love is ever drawing near

But I guess it's like snakes and ladders  
Shakes a nation's confidence, calling out for providence  
Snakes and ladders, as they climb up we all slide down

The children leave their loyalties at home  
The cynic's minds have granted them to roam

But I guess it's like snakes and ladders  
Barely is it tropical, only misanthropical  
Snakes and ladders, as one goes in a score come out

Ooh, snakes and ladders  
Ooh, the world will shatter  
Ooh, snakes and ladders  
Ooh, the world will shatter  
Ooh, snakes and ladders  
Ooh, the world will shatter

You know it's coming like snakes and ladders  
We calling out for providence, shakes a nation's confidence  
Snakes and ladders, as one goes in a score come out  
As they climb up we all slide down
