Diggy

Four letter word

You make me wanna sing to you(oh oh)
(Yeah)Its the little things you do for me
Homie, lover, friend
I can spend my life with you(oh oh)
(Yeah)Girl we aint got a thing to lose
So lets go and runaway
Its you and me
Never gotta worry cause we always got each other
Like the moon to the sea
Girl you got me feeling yo waves
Your my four letter word

You can be anywhere in the world but your here with me cause your my four letter word (and im your) four letter word (Woahhh)
To be loved To be loved what a feeling its a drug
Im addicted to your hugs and your kisses and your uhh
No matter whos around i show effection
Walk you on the inside of the sidewalk for protection
(I need a moment)
To take it all in
It feels surreal dont it
When you need me call me i would never leave you lonely
And i think that its corny to just call you my angel
Your my Aaliyah this letters almost four pages
See my parents and your parents dont agree
They think our love is temporary cause were only teens
But not to many get it right on the first try
And i feeling so right for the first time

I dont wanna hear a love song cause i live it
Every moments memorable we'll never forget it
Love it when you pucker up your lips when i peck it
When you get this message ill be right here when you check it
