

Taylor Swift

Tyler Dean

Verse -

I never thought that I could fall for just one girl
I didn't think someone would ever rock my world
She's cool, tall, beautiful with long blond curls
I'd like to take her for a drive
I need a song that'll turn her head
One that says something that I've never said
Maybe make her turn the lightest shade of red
And really come alive

Chorus -

Well maybe she's just a little too pretty
Out of reach and way too busy
What can I do when the honest truth is
I want a girl, I want a girl, I want a girl like Taylor Swift

Second verse -

First time I heard her we were only thirteen
I remember where I was when she started to sing
Now that were older I just want to be seen
Hanging out, talking 'bout the two of us
Well maybe she's just a little too pretty
Out of reach and way too busy
What can I do when the honest truth is

I want a girl, I want a girl, I want a girl like Taylor Swift

Bridge -

Call her agent call her lawyer too
Hey mister Swift need to talk to you
And mister DJ want you send it on through
'Cause she might be listening, maybe she's listening
Please be listening (oh please)

Chorus -

I know that maybe she's just a little too pretty
Out of my reach and way too busy
What can I do when the honest truth is

Every time I look she's on the top of my wish list

I want a girl, I want a girl, I want a girl like Taylor Swift
