

Afterglow

Vanessa Carlton

Just when the day start getting colder
I walk the streets I never knew
And there's some words I never told you
The sounds, rings out like the truth
And if you could see, what's come over me
Then you would know
'Cause I'm walkin' free
Wind at my back
Bathed in afterglow
As I sit here in this dark room
All I seem to feel is light
And I see color
I see the maroon
In the blood of this life, that's ours
And if you could see, what's come over me
Then you would know
'Cause I'm walkin' free
The wind at my back
Bathed in after
Watch the sun, paints an orange sky
Lay me down and feel the day's gone by
Just when the day
Just when the day, ohh
Just when the day, start getting longer
I walk the streets, I never knew
The sun, comes out for you
And if you could see, what's come over me
Then you would know
'Cause I'm walkin' free
The wind at my back
Bathed in after
'Cause I'm walkin' free
The wind at my back
Bathed in afterglow oh, ho
