

# Sleepwalkers

## Wolfskin

I saw all of this  
in the dreams of my reality  
This road is no longer safe  
Outside the sun it's burning  
but not a single ray  
Hits me! not a single ray hits me  
Drowning in a sea of despair  
Let us out, let us out of this nightmare!  
And now I need a reason to forget  
(and find a way out of this)  
I'm trapped in the same hole again  
(This lifeless noise, fracture our identity)  
Parasomnia... now I'm haunted by my dreams  
Slow we sleep inside, slow we sleep inside!  
Wake up to life! Open your eyes!  
Wake up to life! Open your eyes!  
Let us out, let us out of this nightmare!  
And now I need a reason to forget  
(and find a way out of this)  
I'm trapped in the same hole again  
(This lifeless noise, fracture our identity)  
Wake up to take!  
a thousand blind more steps  
in the name of death...  
Unification!  
Even when my eyes are open  
the fear consumes me  
too many nighs dreaming  
the same dream  
Even when my eyes are open  
the fear consumes me  
too many nighs dreaming  
the same dream...  
I wont let these ghosts haunt me  
when the only thing there's left is my sanity  
I wont let these ghosts haunt me  
Open your eyes  
while you can...
