Love Me

Bee Gees

I remember times my love when we really had it all
You were always there to make me smile, help me when I fall
Ooh, I can't believe you're leaving me
When there's so much more to say, I can't let you go
Ooh, every time I look at you I still can feel the glow
Let it be, let it growOoh love me, please, just a little bit longer
Together we can make it

Our love is much too young to break it

Love me, please, just a little bit harderAll I ever wanted was to have you to myself

Then I see you standing there in the arms of someone else

You know a man can stand so much

And it's more then I can bear, I can't let you go

Ooh, every time I look at you I still can feel the glow

Let it be, let it growOoh love me, please, just a little bit longer

Together we can make it

Our love is much too young to break it

Love me, please, just a little bit harderNever even try to see things her way

It's hard on a woman when love ain't no love at all

And when she walks away and she probably will

You're gonna be sorry, begging her, pleaseLove me, please, just a little bit longer

Together we can make it

Our love is much too young to break it

Love me, please, just a little bit harderI think I can work it out, I, I, I been there, can't get enough I want you tomorrowLove me, please, just a little bit longer

Together we can make it

Our love is much too young to break itLove me, please, just a little bit longer

Together we can make it

Our love is much too young to break itLove me, please, just a little bit longer

Together we can make it

Our love is much too young to break it

Love me, please, just a little bit longer

Together we can make it
