

I'll Tell the World I Love You

[Jim Reeves](#)

I'll tell the world I love
I'll tell the world I care
For every time I need you
I always find you there You've been my inspiration
You've my guiding light
And when you walk beside me
I feel everything is alright As sweet as the sunset at evening
As true as the stars on high
You've made my life forever
Nothing but a clear blue sky Never a reason to doubt you
Credit where credit is due
I'll shout it to the whole world
I'll tell the world I love you
