

Amazing

Foxes

Do what you want
(Do what you want)
(Do what you want)
(Do what you want) When I look at you the drums all start beating
And I just don't know if I'm ready or not, to do it all again See, I got a wild heart and I can't control it
It keeps on letting me down I know, with you, tonight could be amazing
Be amazing
I'm scared, to death, still I stood here waiting
Here waiting Do what you want
(Do what you want)
Take a hold of me
(Do what you want)
'Cause my heart keeps saying
(Do what you want)
That you're all I need
(Do what you want) With a touch, you bring me back to life
I'm rising
And I don't even know if I'll survive, but I'm all in See, I got a wild heart and I can't control it
It keeps on letting me down I know, with you, tonight could be amazing
Be amazing
I'm scared, to death, still I stood here waiting
Here waiting Do what you want
(Do what you want)
Take a hold of me
(Do what you want)
'Cause my heart keeps saying
(Do what you want)
That you're all I need
(Do what you want) Should be running away tonight
Should be finding a place to hide
But I'm starting to feel alive
And I know, with you, tonight could be, oh
Should be running away tonight
Should be finding a place to hide
But I'm starting to feel alive
I know, with you, tonight could be, oh I know, with you, tonight could be amazing
Be amazing
I'm scared, to death, still I stood here waiting
Here waiting Do want you want (Do what you want)

Oh, my heart keeps telling me (Take a hold of me)
Do what you want
Oh, my heart keeps telling me ('Cause my heart keeps saying)
Do what you want
Oh, my heart keeps telling me (That you're all I need)
Do what you wantDo what you want
Do what you want
All my heart keeps saying now
Do what you want
All my heart keeps saying now
Do what you want
All my heart keeps saying now
Do what you want
All my heart keeps saying now
