So Hot

Wonder Girls (ì›•ë•”ê±¸ìŠ¤)

Flash lights moon grin hot bodies grooving
I knew there was love in the air
Anticipation my heart is racing
I'm yours for the night if you dare
If you wanna do it make your move right
If you want me baby keep me in your sight
Ain't no use in fighting 'cos my mind's made up
You get me so hot don't you wanna
Dance to the music all night
Party till the dawn when the sun comes up
Kiss goodbye in the moonlight
You got me feeling hot please don't ever ever stop
Dance to the music all night
Party till the dawn when the sun comes up
Kiss goodbye in the moonlight
You got me feeling hot please don't ever ever stop
Now I know I've got you exactly the way I want you
And all of your defenses are down
My body's craving why the hell you waiting?
My fantasy is what I found
If you wanna do it the time is now
If you want me baby I can show you how
Ain't no use in fighting cos my mind's made up
You get me so hot don't you wanna
Dance to the music all night
Party till the dawn when the sun comes up
Kiss goodbye in the moonlight
You got me feeling hot please don't ever ever stop
Dance to the music all night
Party till the dawn when the sun comes up
Kiss goodbye in the moonlight
You got me feeling hot please don't ever ever stop
Take you where you've never been before
(I wanna freak you down in all the right places)
I wanna make you feel like you never need no more
(Make you hotter than the one you ever tasted)
I wanna take you where you've never been before
(I wanna freak you down in all the right places)
Make you feel like you never need no more

(Make you hotter than the one you ever tasted)
Dance to the music all night
Party till the dawn when the sun comes up
Kiss goodbye in the moonlight
You got me feeling hot please don't ever ever stop
Dance to the music all night
Party till the dawn when the sun comes up
Kiss goodbye in the moonlight
You got me feeling hot please don't ever ever stop
Dance to the music all night
Party till the dawn when the sun comes up
Kiss goodbye in the moonlight
You got me feeling hot please don't ever ever stop
Dance to the music all night
