

# Sugar

## Superdrag

Looking for a kiss that'll knock me out  
Sugar numb my lips again  
'Cause I know the score  
I know the score Looking for a girl that'll stick around  
That'll let me down slow  
'Cause I know the score  
I know the score Could it be you?  
I got nothin' else to do and I've got no thing to lose  
Give me a shot, could it be real?  
I got nothing left to steal and I'm too fucked up to feel  
Give me a shot  
Here I am give me what you got Looking for a gas that'll get me high  
That'll get me there fast  
'Cause I need the score
