

Some More

Funkadelic

Much quicker than science fiction
Is this pain about my new affliction
Waves of pain are sweeping through me
Just tell me who would ever believe me Rather than believe it's all so easy
To cause me to suffer all this grievin'
I blame it on something that can't be explained
I said that I've got a new kind of pain I've got headache in my heart, heartache in my head Each and every single
day
Money is big in some sort of way
Forget all the doctors being absolutely certain
For months for me they can't find what's hurting When the pills that the pain brings on
It's got nothing to do with the fact that you're gone
You ain't the reason why I don't sleep at night
It's only because I'm trying to fight this Headache in my heart, then I got a heartache in my head
