

# In the Clouds

## All About Eve

Bright in flames, they're melting with the snow  
Precious wishes heavenwards they go  
Secrets keep, no one need ever know When you're in the clouds, in the clouds  
In the clouds, in the clouds, in the clouds  
You're just a breath away Painted words are whispered it's no prayer  
Whispering words are drifting like the snow When you're in the clouds, in the clouds  
In the clouds, in the clouds, in the clouds  
You're just a breath away, away Just a breath away  
Just a breath away In the clouds, in the clouds, in the clouds  
In the clouds, in the clouds, in the clouds  
You're just a breath away In the clouds, in the clouds, in the clouds  
In the clouds, in the clouds, in the clouds  
You're just a breath away
