Switch

Siouxsie and the Banshees

Different lives in different places
Familiar problems same old faces
Shuffled lives into wrong categories
Cross the wires and fuse humanitiesWatch the muscles twitch
For a brand new switchScientist G.P.'s
With patient guinea-pigs
Curing their head-aches
With drastic side-effects
With drastic side-effectsDoctor rectorates, rectorates
Condescending from on high
For all hallucinates
See druggist in the sky
In the skyVicar experiments
But 'tis blasphemy
Dismissing thought of progress
As the mark of devilry
As the mark of devilryWatch the muscles twitch
For a brand new switchPeople walk and even talk
People listen then they halt
Something blows up won't come down
Scattered muscles twitch too late to switchThey're dying to switch
They're dying to switch
Switch switch
Watch the muscles twitch
For a brand new switchThey're dying to switch
They're dying to switch
Switch
Watch the muscles twitch
For a brand new switchThey're dying to switch
They're dying to switch
Switch switch switch switch
