

# On a Promise

## Fine Young Cannibals

When tomorrow comes  
I'm gonna make a fresh start  
Gonna do good things  
Really play my part  
When tomorrow comes  
I'm gonna do it all  
I feel so strong, I feel so tall  
You got it on a promise  
You got it on a promise  
Honest, honest, honest  
You got it on a promise  
You better change your foolish ways  
There's plenty more to take your place  
But now I've gotten into a terrible state  
The next day came, I got up late  
I tried my best, but it all went wrong  
Just a broken promise couldn't hurt no one  
You got it on a promise  
You got it on a promise  
Honest, honest, honest  
You got it on a promise  
You're not wasting time  
Everything I say is true  
Show some faith in me  
Would I lie to you?  
When tomorrow comes  
I'm gonna make a fresh start
