Black Flys

Nicotine

Black flys is my super hero
A master guy, walking through the night, yeah
In a black light he always
tells you something cool
He shows you all girls beautiful, yeahAnd the sun is rising, another morning
He makes me feel better
New friends, they are with me
When I look behindBlack flys is our super hero
Across the California sky, yeah
In the dog fight he's gonna take me to the high
He always tells me it's alright, yeahAnd the sun is rising, another morning
He makes me feel better
New friends, they are with me
When I look aroundAnd the moon is shining, another fighting
He can be my sight
You should know You could knowOh flying in the sky
Fly away, high away
He shows me the way
He calls my name from far awayAnd the sun is rising, another morning
He makes me feel better
New friends, they are with me
When I look aroundAnd the moon is shining, another fighting
He can be my sight
You should know You could knowOh flying in the sky Fly away, high away
He shows me the way
He calls my name from far awayOh Black flys, Oh Black flys
And the sun is rising, another morning
I will fly for ever
When I face to the future
He is on the head
