## Slothrust

Some men purchase Real Dolls  
To fill the void.  
But she don't finish dinner  
And her expression never changes.  
Don't shake hands with the lonely kids  
'Cause I hear that shit's contagious.  
Yeah yeah Animals in my bed  
Animals in my bed  
Animals in the streets.  
I like cats,  
Do you like cats  
Of course you do you sassy motherfucker  
My stomach hurts  
Does your stomach hurt  
Do our stomachs hurt together  
I feel pain  
Do you feel pain  
Will this pain last forever  
Yeah yeah I don't think the flavor packet  
Makes it taste much different  
You said you knew who you were  
But I did not know what you meant I'm a devil  
You're a devil  
We're all devils, Mary  
You love Satan but you don't know her  
Sometimes she gets scary  
Yeah yeah
