Ghost

Massive

I've been around for a long long time
I've seen it all and I've survived
Truth fades but the violence rules
Save yourself cos they won't save youI've been there for the better days
A lesson learnt the hardest way
When life deals you the losing hand
Take no time there's no second chanceGhost, I need to know
Is there a chance, I'll come back home
Ghost, I lost control
And now I know, That I'll be left with nothingI'm alive for what it's worth
A picture speaks a thousand words
You gotta fight, and then you fall
And then you realize you out there on your ownGhost, I need to know
Is there a chance, I'll come back home
Ghost, I lost control
And now I know, That I'll be left with nothingGhost, I need to know
Is there a chance, I'll come back home
Ghost, I lost control
And now I know, That I'll be left with nothing
