

Knew Noise

Section 25

Here's one for your face
You won't make the human race
Here's one for your mind
Take disco to the blind
Here's one for your sexy time
Slide around in all the slime
Here's one for the big tough guy
There's always someone to make you cry
Dream dreaming dream the dream
Wakey wakey dream the dream
Can you make it make it rain (2x)
Are you insane?
Here's one for the one's who know
Come here to us show us where to go
You're out there somewhere
Dream the dream (2x)
Here's one for the one's who know
Come here to us show us where to go
You're out there somewhere
Penetrate us with your stare
