

Love Has Found Us

Bellarive

Broken down
I've run aground
in perfect need
of You The life You bring
You breathe on me
for out of You comes everything so we breathe in deep this love
so we breathe in deep this love Ocean sings
Your melodies
the Composer's heart
Indeed Painted skies
rest at Your feet
the earth surrenders
a masterpiece so we breathe in deep this love
so we breathe in deep this love It's so beautiful
how only You can satisfy this heart
it's so beautiful
how only You can satisfy this heart
for You will always be the life i need The life You bring
breathe on me
for out of You comes everything That's why
we breathe in deep this love
we breathe in deep this love It's so beautiful how only You can satisfy this heart
it's so beautiful how only You can satisfy this heart
it's so beautiful how only You can satisfy this heart
it's so beautiful how only You can satisfy this heart
for You will always be
the life i need
the life i need We sing sing it out we sing it loud
for love has found us
we sing sing it out sing it loud
for love has found us
we sing sing it out sing it loud
for love has found us
sing sing it out sing it loud
for love has found us
sing sing sing it out sing it loud
for love has found us
sing sing it out sing it loud
for love has found us
