

Shady Girl

Jagged Edge

I don't like wastin' my time
I know I'm young but I can do better with mine
'Cause I just want it to make sense for me
Don't have me givin' all of me when you know You ain't tryin' to do the right thing
'Cause I just wanted to be for you
But you just wasn't for me, baby
And you gave me every good reason in the world
To leave you alone Such a shady girl
Used to love everything about you till you changed my world
Thought I had a dime, you'd have lost your mind
You're a crazy girl don't expect much
Gotta respect my crazy girl
Shady girl See I can't keep askin' you, why?
Seems to me that you didn't just made up your mind
Hopefully one day you see that life
Ain't just fun and games and maybe
Gotta try to love some, love somebody else I just try to be for you
But you just wasn't for me
I just try to be there for you
But you left me so cold Such a shady girl
Used to love everything about you till you changed my world
Thought I had a dime, you'd have lost your mind
You're a crazy girl, don't expect much
Gotta respect my crazy girl
Shady girl Someone tell me
Tell me why we always fighting
And disrespecting
Thought I knew you now I see you
For all that your worth
You're a shady shady girl Such a shady girl
Used to love everything about you till you changed my world
Thought I had a dime, you'd have lost your mind
You're a crazy girl don't expect much
Gotta respect my crazy girl
Shady girl Such a shady girl
Used to love everything about you till you changed my world
Thought I had a dime, you'd have lost your mind
You're a crazy girl don't expect much
Gotta respect my crazy girl

Shady girl
