

Not Myself

[John Mayer](#)

Suppose I said I am on my best behavior
There are times I lose my worried mind Would you want me when I'm not myself?
Wait it out while I am someone else Suppose I said colors change for no good reason
And words will go from poetry to prose Would you want me when I'm not myself?
Wait it out while I am someone else And I, in time, will come around
I always do for you Suppose I said you're my saving grace? Would you want me when I'm not myself?
(My grace, myself, not myself, when I'm someone else)
Wait it out while I am someone else
(When I'm someone else, when I'm someone else, when I'm not myself) Would you want me when I'm not
myself?
Wait it out while I am someone else
