Past In Present

Feist

The scarlet letter isn't black
Gotta know who's got your back
He comes in right in front of you
He comes telling you the truth
So much present
Inside my present
Inside my present
So so much past
Inside my present
Inside my present
Inside my present so so
Feeling it too dark to bright
When a wrong becomes a right
Oh when a mountain fills with light
It's a volcano, it's a volcano
It's a volcano, it's a volcano
And so much present
Inside my present
Inside my present
And so so much past
Inside my present
Inside my present
Inside my present
And so so much past
Inside my present
Inside my present
Inside my present
So so much past
Inside my present
Inside my present
Inside my present
And so so
