Full Moon, Empty Heart

Belly

Sleep in now, now
Sleep in now, now, now
It's still night out, sleep inDon't look at me looking back at you
Out the window backwards
Out the window backwardsSleepSee this child twice stolen from me
Out the window backwards
Out the window backwardsSleep in now, now
Sleep in now, now, now
Sleep nowNow fall to the bed
Put your hand in your hair
Now fall to the tile
Stick your finger in your eye
That's the only way you cryHey now, hey now
Full moon past the window sideways
Hey now, hey nowSleep in now, now
Sleep in now, now
Sleep in now, nowSleep, sleep, sleep
