Easier

Pitty Sing

You want to make things easier
This isn't the way to be
I doubt you'll make things easier
This isn't the way I see
Don't break your head
Don't break your heart
And just love only you and I
Don't make a move right from the start
And just love only you and I
So just love only you and I

I doubt you'll make things easier
This isn't the time to bleed
I tried so hard to please ya
This isn't the way I feel
Don't break your head
Don't break your heart
And just love only you and I
Don't make a move right from the start
And just love only you and I
So just love only you and I holding on
