My World's Spinning

Tata Young

My world's spinning 'round n 'round x 2
My life's turning upside down
I thought I had it all
A world of calm and safety
I always took the easy way, yeah
I thought I knew myself
Had written my life's story
How was I to know, we would meet someday
You came
And took me by surprise
Hear all the angels sing in paradise
[Chorus]My world's spinning 'round n 'round
I don't know what to do

My life's turning upside down
All because of you
If I'm dreaming, never wake me up
Cause this feeling, takes me to the top
I followed all the rules
Can say I planned my actions
Guess I'm the opposite of you
You're living day by day
Trying to seize the moment
Doing as you please, whenever you want to
You came
And took me by surprise
Hear all the angels sing in paradise
[Chorus]
