

# Isn't It Scary

Jon B

I know a place where we can get it on good, baby  
As far away, far away baby, from the world and all the city lights

If you're not scared to get away  
From the normal things, from the normal dreams  
And you're not thinking about your man at home

Just me and you alone

Ain't it scary, baby

Isn't it scary

How you're here with me  
And not with your man at home

Isn't it scary

How you're here with me  
And not with your man at home

Me and you alone

And baby, baby, baby, baby

Don't you see this love runs deep in me, baby

Pretty lady, oh girl

I feel too good to feel guilty

I'm sorry for nothing

Except that I'm not with you for good

And if I could, if I could, yeah

I'd make you mine, oh mine

Now aren't you scared

Isn't it scary

How you're here with me  
And not with your man at home

Isn't it scary

How you're here with me  
And not with your man at home

Me and you alone

Isn't it scary

How you're here with me  
And not with your man at home

Isn't it scary

How you're here with me  
And not with your man at home

Me and you alone

[Incomprehensible]Isn't it scary

How you're here with me  
And not with your man at home  
Isn't it scary  
How you're here with me  
And not with your man at home  
Me and you alone  
Isn't it scary  
How you're here with me  
And not with your man at home  
Isn't it scary
