

# Charlie, The Methadone Man

## Fastball

Living to get his freak on  
Sporting his leopard skin thong Charlie the methadone man plays Sunday nights in a Rock and Roll band  
Charlie the methadone, the methadone man Patience, the name of the game  
Waiting on Dr. Kincaid Charlie the methadone man fills out the papers just as fast as he can  
Charlie the methadone, the methadone man When you're all alone and you got nowhere to go  
Better take it slow oh you get so tired of where you are Kicking his lonely lit brain  
Drinking to try and stay sane Charlie the methadone man chases his tail just as fast as he can  
Charlie the methadone, the methadone man  
Oh, Charlie the methadone, the methadone man Waiting, waiting, waiting
